Re:	NEB Safety Compliance Audit		

The National Energy Board recently completed the final leg of their TMPSE facility inspection, January 24 - 26, 2007. The following sites: Stump Lake, Kingsvale, Hope, Wahleach, Port Kells, were audited for safety compliance.

The findings of the audit, as identified in the attached reports, can generally be categorized as minor in nature with most items falling into the housekeeping category.

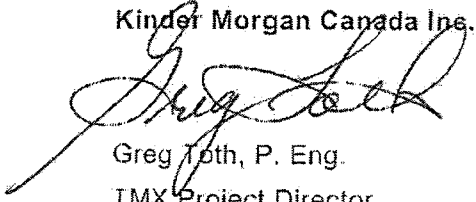

I wish to thank the KMCI field inspection staff and construction crews that contributed to the success of the safety audit and their commitment to conducting their work safely.

The crews at the Stump Lake and Hope stations deserve special recognition for their contribution to the success of the NEB safety audit with no findings reported. Given that audits, by nature, are predisposed to findings, this is a rare occurrence.

I would like to thank David Boysen, Trevor Stevenson, and Paul Braaten at the Hope station for their safety leadership and Jack Allard, Mitchell's Site Superintendent, along with Mitchell's subcontractors for their efforts. In addition, thanks go to Mike Baker, Bryn Sokolosky, Joe Dhaliwal, and Kevin Bakker for their leadership at the Stump Lake station as well as Don Reynolds, Mitchell's Site Superintendent and their subcontractors at this site.

Again, thanks for your efforts!

Attention: Mr. Cal Rosen

Dear Mr. Rosen:

2006 NORTH VANCOUVER PLANT SAFETY EXCELLENCE

Just wanted to take a moment and formerly thank you, and your employees for contributing towards Canexus North Vancouver Plant achieving the Safety Award of Excellence!

As a contractor your employees have been a part of contributing to 200,000 hours of employee and contractor recordable injury free work at our Plant as of December 6, 2006.

This is a significant milestone which we can all be proud of. At Canexus in line with our Responsible Care code of ethics, we endeavor to hire only those contractors that share our commitment to safety as a first priority. Your employees safe work during this period is appreciated.

Along with our Joint Safety Health & Environmental Committee I encourage you to continue making safety the first priority in all of your work as we now set our sights on the 400,000 hour mark.

Yours truly,
CANEXUS CHEMICALS CANADA LIMITED PARTNERSHIP

Dear Mr. Rosen,

Elk Falls recently completed a rebuild of No. 5 paper machine over a seven day period in July. During that shutdown, despite the complexity and intensity of the work, no injuries were recorded. The result clearly demonstrates that NorskeCanada's commitment to an injury free workplace can be achieved.

We would like to express our appreciation for your contribution to demonstrating that complex tasks can be achieved in demanding workplaces, without putting workers at risk. We very much appreciate your positive attitude and your commitment to safe work practices.

Yours truly,

M.F. Gouge
Engineering Manager
